A Member of

Profile

Established in the year **2009**, We '**ACME Lab & Medical Instruments, Jaipur**' are a promising organization engaged in manufacturing and supplying a wide variety of Medical & Clean-Room Equipment, Systems and Related Machinery. These are fabricated using premium grade raw material, which we source from vendors of unblemished market standing. Our products undergo stringent quality control regimen, for complete assurance of quality. These products are regularly upgraded in tune with the latest developments in the industry and can also be customized as per the specific requirements of the clients. Our products are sturdily constructed and are notable for their highly efficient and error-free performance.

In our pursuit to provide a product range as per the international quality standards, we are backed by a team consisting of highly efficient professionals. These team members are proactively involved in maintaining optimal operational efficiency by close co-ordination amongst themselves and various departments. Our professionals are responsible for streamlined production process and are engaged in keeping a strict vigil at various stages of manufacturing. These products are demanded and used by various sectors including Hospitals, Medical & Science Colleges, Biological Research Laboratories and Pharmaceutical Industry.

We are guided by our mentor "**Mr. Praveen Kumar Rai**" and have registered an exponential growth in this domain in a relatively short period of time. His experience and unmatched expertise in this domain, along with his superlative leadership qualities have allowed us to establish a credible name in the industry.
